Retrieving the Update Set:

Test The Catalog Item:

This screenshot shows the ServiceNow interface for viewing a catalog item. The left sidebar contains a navigation menu with 'Catalog' highlighted. The main content area is titled 'Service Catalog > Hardware > Laptop Request'. It features a form for requesting a new laptop with fields for 'Laptop Model', 'Justification', and 'Additional Accessories'. On the right, there are controls for 'Order this Item' including 'Quantity' (set to 1) and 'Delivery time' (2 Days), along with 'Order Now' and 'Add to Cart' buttons. A 'Shopping Cart' section at the bottom right shows it is empty.

This screenshot shows the same ServiceNow interface, but with the 'Additional Accessories' checkbox checked. Below this checkbox is a new section titled '* Accessories Details' with a corresponding text input field. The rest of the interface, including the navigation menu, breadcrumb trail, and ordering controls, remains the same as in the previous screenshot.
